

BEAN

The BEAN Collection features fluid, biomorphic shapes that soften modern office interiors. It blends residential aesthetics with commercial durability, enhancing high-traffic areas like executive lounges and collaborative spaces, while providing a comfortable and inviting atmosphere.

Soft minimalism meets biomorphic design. Bean collection features a continuous, asymmetrical curve that encourages flow within a room, breaking the rigidity of traditional straight lines. The juxtaposition of the voluminous, textured body against slender, matte-black stiletto legs creates a sense of visual lightness.

ALUMINUM BASE

Crafted from high-quality aluminum with a mirror-like electroplated finish. It boasts excellent strength, wear resistance, and protection against rust and corrosion, making it ideal for long-term fixed furniture use.

HIGH DENSITY FOAM

The product provides excellent durability and support, preventing sagging and maintaining its shape, leading to a longer lifespan and a stable, comfortable seating experience.

ZIG ZAG SPRING

Built for longevity, our seating features heavy-gauge Zig Zag sinuous springs that ensure structural integrity and consistent shape retention over years of use.
