phantom

A collection that transcends the ordinary

Infusion of Form And Function

Ultimate ergonomic comfort eclipses with Phantom's contemporary curves, transpiring into a multifunctional chair that stands out yet blends into almost any environment. Structurally sound and well-endowed with excellent design, Phantom effortlessly fits into modern office settings – from meeting areas, breakout spaces and executive rooms, this chair complements workspaces with a sophisticated touch.

phantom

A Perfect Fit For Every Space

With excellent back support, Phantom elevates comfort further with its upholstered seat, seat back and arm rests. In lounges and public spaces, the cantilever base versions can be configured to form a specific seating landscape. A variety of upholstery colours along with matching Phantom coffee tables make room for total design versatility.

phantom

Uniting sophistication and comfort

Immaculate Design Details

Phantom maintains a seamless silhouette via its sleek curved armrests that blend effortlessly with its smooth seat pads. Different variations are possible – thanks to a variety of bases including 5 or 4 pronged bases as well as a swivel base with castors.

Specifications

a Moulded Foam

High density polyurethane moulded foam with fire retardant feature gives the seat flexibility to conform to the user's seating posture.

b Under Seat

Bottom polypropylene cover made of recycled material is secured to the seat.

c 5 Pronged Base

Nylon base that comes with matching 50mm nylon castors.

Fine Stitches: Fine stitching and quality workmanship result in superior cushion support.

Optional

Fixed Armrest

Sleek curved armrests provide solid support. (Pic 1, 2, 3)

5 Pronged Base

5-pronged base in either die-cast polished aluminium or nylon finish generates a highly sophisticated ambience while providing strong stability. (Pic 4, 5)

4 Pronged Base

4-pronged base in die-cast polished aluminium finish generates a highly sophisticated ambience while providing strong stability. (Pic 6, 7, 8)

Nylon Castors or stud

50mm or 60mm nylon dual-wheel castors and studs are designed for smooth gliding and also to reduce floor scratches. (Pic 9, 10, 11, 12, 13)

Footrests Ring

The polished aluminium base that comes with a chrome footrest ring provides a better and more comfortable sitting position. (Pic 14)

Rotary Point Synchronized Mechanism

Multi-locking mechanism comes with seat height adjustment and revolving tension control function. (Pic 15, 16)

Ball Motion Mechanism

With the ball motion mechanism, users are able to sit dynamically. The chair moves as if you are sitting on a ball. Through stabilizing the user's body muscles, the body is kept in balance. (Pic 17)

Lift Up & Down Mechanism

Metal mechanism with lift up & down functions that come with pneumatic cylinder. (Pic 18)

Height Adjustable Pneumatic Cylinder

Imported heavy duty pneumatic cylinder is designed with safety and durability features, allowing for height adjustment of the chair to suit each user's physique. (Pic 19, 20)
